Who we are

At Programme Services Partners, we understand that project delivery is getting increasingly complex. Since 2013, we've been helping companies of all sizes improve the way projects are delivered.

Our mission is to be the number one provider of innovative project solutions driven by a community of experienced, caring, and passionate project professionals all seeking to improve the way projects are delivered.

Our vision is to improve the lives of people everywhere through the delivery of projects. We provide a range of tailored services ranging from organisational systems implementation to project transformation and complete program recovery. Our collaborative approach and hands-on style help clients very quickly achieve significant and lasting benefits.

With an extensive professional network, we pride ourselves on being able to provide the best people in the field of project and programme controls and delivery, who are renowned for delivering results through their expertise and proven track records.

We place our values in community, empathy, authenticity and personal growth. We believe that when People, Systems and Processes are brought together in the right way the programme objectives will be met and the benefits to the business are maximised.

Technology Partners

Data Analytics, Automation & AI are key enablers for project delivery. With the increased complexity of projects, technology will play a crucial role in successful project delivery.

We've partnered up with some of the best technology partners in the market to bring you an independent assessment of your system architecture requirements.

PROJECTING SUCCESS

Philanthropic Endeavours

Our community members are involved in a wide array of philanthropic activities.

Project Chatter Podcast - a free podcast hosted with the main aim of "paying it forward" by making insight and information from experts around the globe accessible to all.

Project Connect Group - a free networking event each quarter to bring together all project professionals with the sole aim of breaking down paywalls to access mentors and meet other professionals.

Project Controls Hub - a free mentoring hub for all project controls professionals to access a highly qualified and experienced mentor

Community Focus

When we talk about community at PSP, this extends beyond the PSP community. We are always looking for ways to collaborate with likeminded organisations and individuals. We are emmensly proud of all our staff who look to "pay it forward" with a community focus!

ISO
Accreditations

bsi ISO 9001 Quality Management Systems CERTIFIED — ISO 14001 Environmental Management CERTIFIED — ISO 45001 Occupational Health and Safety Management CERTIFIED

Health & Safety

As a ISO45001 accredited organisation, keeping our people and those we interact with healthy and well is of paramount importance to us.

We take our responsibilities very seriously and believe that the best way to protect everyone is to ensure their engagement with us ensuring they feel part of the family

Quality Management

As a ISO9001 accredited organisation PSP leads the way against its SME competition.

We work with our clients to develop robust quality management systems and methods by either adopting and adapting our approach or by meeting the needs of our clients existing QMS

Environment

As a ISO14001 accredited organisation PSP takes its commitment to the Environment seriously.

We work with our clients to develop sustainable processes & workflows and construction methodologies that reduce the need for 'printed' forms, paperwork and construction methodologies

PSP
Programme Services Partners

Our Policies

More information on our policies can be found at www.psp.limited

Health, Safety & Well-being Policy

Our aim is to provide healthy and safe places to work by engaging with our people and ensuring the clients and suppliers we work with are like-minded in Health, Safety and Well-being.

Quality Policy

PSP Group are dedicated to a quality policy that will ensure that its project management consultancy services fully meet the requirements of its clients across the rail, power, transportation, infrastructure, and utilities sectors. In the pursuit of excellence, PSP seek to offer high satisfaction for all interested parties.

Environmental Policy

PSP Group is committed to sustainable environmental practices and minimising our environmental impact. We recognise our responsibility to reduce negative impacts and increase positive ones where possible.

Corporate Social Responsibility Policy

We acknowledge that running our business has an effect on society. We have a responsibility to our clients, our employees, and contractors as well as the broader community in which we operate.

GDPR Policy

PSP Group is committed to full compliance with the requirements of UK General Data Protection Regulation and DPA Act 2018, as well as any other relevant government legislation. All Company Personnel are issued with a GDPR Manual to be aware of their obligations and duties when processing personal data on behalf of the PSP Group.

Privacy Policy

At PSP we respect your privacy and are committed to protecting personal data.

Charity Work

ORDINARY 2 EXTRAORDINARY

PSP is honoured to be supporting this important charity. This charity, works to make a significant improvement to the lives of seriously and terminally ill children. Our Managing Director, Olli Wade, is an ambassador.

PSP supports TreeAid.

Tree Aid is a charity working with communities in the drylands of Africa to tackle poverty and the effects of the climate crisis.

Compassion®
in Jesus' name
Releasing children from poverty

Meet Hope.

She is 4 and lives in Uganda. We support her and the work of Compassion UK Uganda is close to our hearts after the time Olli spent there.

PSP
Programme Services Partners

Data Analytics Integration

PSP collaborated with Eiffage, Kier, Ferrovial, and BAM Nuttall (EKFB) on the High-Speed 2 (HS2) project to transform the UK's transport infrastructure with a high-speed rail network.

PSP's technical expertise and EKFB's collective experience in large-scale infrastructure projects played a vital role in the successful execution of the HS2 project through the Data Analytics Integration project undertaken by PSP for EKFB, emphasising its importance in enhancing the efficiency and effectiveness of the HS2 project delivery.

EKFB for HS2

EKFB is a joint venture that brings together international, market leading expertise from four leading civil engineering and construction companies: Eiffage, Kier, Ferrovial Construction and BAM Nuttall. All four partners bring specialist expertise in the design, construction, operation, financing and maintenance of railway networks, including some of Europe's largest high speed rail projects.
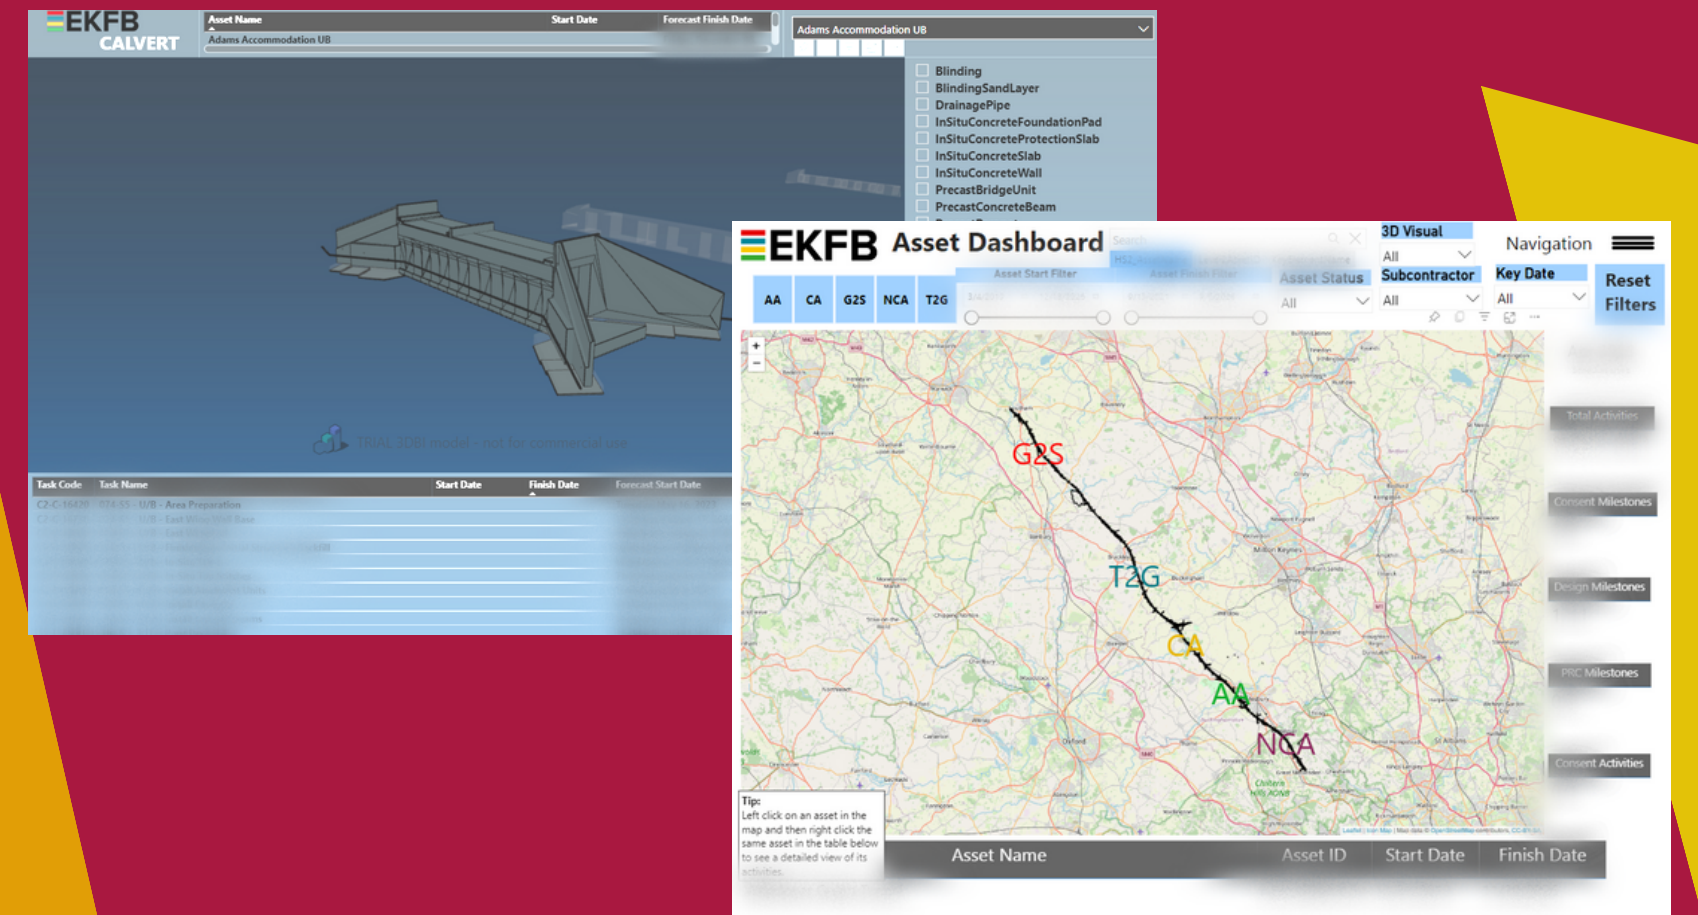

Strategic Advisory

PSP partnered with Northrop Grumman NSS Executive Leadership, providing strategic advice to enhance project delivery. Together, we developed a comprehensive strategic plan and implemented PMO organisational restructure, process establishment, and system integration. Highlights include:
1. Strategic Advice
2. Strategic Plan
3. PMO Restructure
4. Process Establishment
5. System Integration

Our partnership with Northrop Grumman NSS showcases our expertise in delivering tailored guidance and achieving measurable outcomes. Join PSP today and unlock your full potential for project excellence.

Northrop Grumman NSS

Northrop Grumman UK is a growing British business, wholeheartedly committed to supporting the defence and national security of the United Kingdom and its allies.

PMO Leadership & Management

PSP supported RR SMR in raising the capital required to further develop its technical solution for the development of Small Modular Nuclear Reactors

PSP supported the development of the organisation including the mobilisation and development of the PMO for the business

Rolls Royce SMR

The business is now undertaking its outline designs following the sucsessful conclusion of the Feasibility Study, and working towards gaining Regulatory Acceptance of it Generic Design Assessment (GDA)

PSP
Programme Services Partners

Project Management & PMO

Having undertaken the Project Management and Planning of these
works for the last 5 years, through the strength
of our relationship, PSP have now secured the
PMO role for the AMP7.

PSP are now responsible for defining and
implementing the Governance & Project
Controls for the next regulatory period.

Thames Water - AMP6

Infrastructure Alliance Programme over 5 years. Our involvement is the Management of the Capital Works including trunk mains replacements; minor schemes replacing aged valves and meters; and maintenance and Improvements of high-risk tunnels across the city of London.

PSP
Programme Services Partners

Thames Water

Project Controls & System Implementation

PSP held the role of Project Controls Lead for the Programme with numerous team members embedded within the PMO, covering Change Management and Reporting.

Transpennine Route Upgrade

£2.9bn Upgrade of the railway network between York and Manchester, with the key objectives being the upgrade of 4 major stations and improved capacity by improving the electrification; signalling and track alignments, which collectively increases capacity by over 200% and improves journey times.

PSP Programme Services Partners

JACOBS
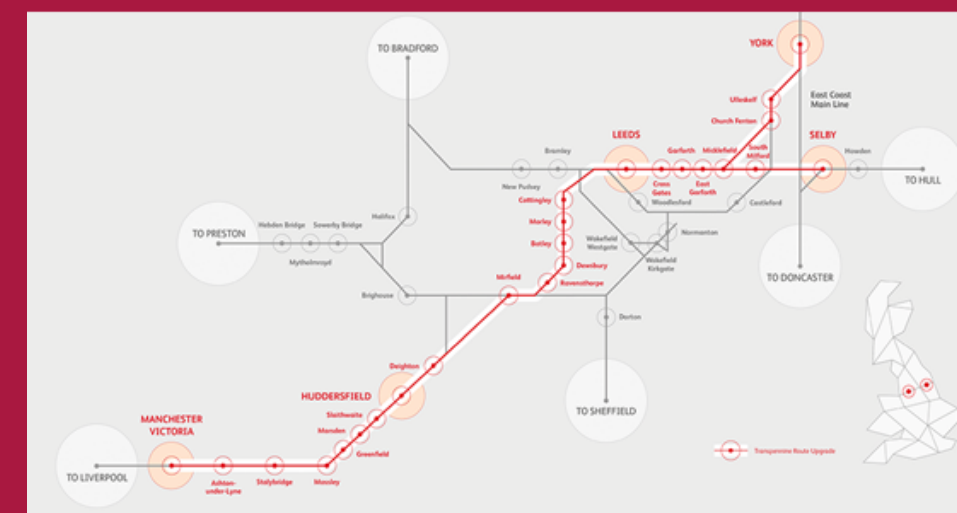

Bid Management

PSP supported BCM in bidding for the design and construction of 2 new Bridges as part of the Re-signalling Programme.

BCM were successful in this bid and PSP continues to support the Project through delivery.

Feltham Resignalling Bridges

This phase of works forms part of a major Re-Signalling project to renew life Expired signalling, telecoms and power assets for Network Rail, comprising the renewal of 538 Signalling Equivalent Units (SEUs) and 2 new bridges.

Bid Management

Etihad Rail – Rolling Stock Bids

Tendering 3 separate projects to Design; Manufacture; Introduce; Operate and Maintain Rolling Stock. The 3 projects are 2 long distance freight services and a passenger service. In total, supplying over 200 trains to Etihad Rail.

Providing specific expertise to CRRC in the development of Bids. Covering the definition of the Programme Management approach, writing Systems Assurance Plans, proof reading and content verification due to translation errors.

PSP were asked to support the mobilisation of the first project landed with Etihad Rail for the construction of a new line between Fujairah and Khorfakkan ports.
