Personal Growth

Authenticity

Community

Empathy

"I founded PSP in 2013 to provide specialist support to organisations with a service that is tailored to their specific needs."

Olli Wade
Founder & Managing Director

Who we are

At Programme Services Partners, we understand that project delivery is getting increasingly complex. Since 2013, we've been helping companies of all sizes improve the way projects are delivered.

Our mission is to be the number one provider of innovative project solutions driven by a community of experienced, caring, and passionate project professionals all seeking to improve the way projects are delivered.

Our vision is to improve the lives of people everywhere through the delivery of projects. We provide a range of tailored services ranging from organisational systems implementation to project transformation and complete program recovery. Our collaborative approach and hands-on style help clients very quickly achieve significant and lasting benefits.

With an extensive professional network, we pride ourselves on being able to provide the best people in the field of project and programme controls and delivery, who are renowned for delivering results through their expertise and proven track records.

We place **our values** in community, empathy, authenticity and personal growth. We believe that when People, Systems and Processes are brought together in the right way the programme objectives will be met and the benefits to the business are maximised.

Our Clients & Partners

We're fortunate to work with some of the best clients and partners around, and would love for you to join the community.

We've forged strong long-lasting relationships so get in touch to see how we can work together to improve your project delivery capability.

Technology Partners

Data Analytics, Automation & AI are key enablers for project delivery. With the increased complexity of projects, technology will play a crucial role in successful project delivery.

We've partnered up with some of the best technology partners in the market to bring you an independent assessment of your system architecture requirements.

NODES & LINKS

ISO Accreditations

Health & Safety

As a ISO45001 accredited organisation, keeping our people and those we interact with healthy and well is of paramount importance to us.

We take our responsibilities very seriously and believe that the best way to protect everyone is to ensure their engagement with us ensuring they feel part of the family

Quality Management

As a ISO9001 accredited organisation PSP leads the way against its SME competition.

We work with our clients to develop robust quality management systems and methods by either adopting and adapting our approach or by meeting the needs of our clients existing QMS

Environment

As a ISO14001 accredited organisation PSP takes its commitment to the Environment seriously.

We work with our clients to develop sustainable processes & workflows and construction methodologies that reduce the need for 'printed' forms, paperwork and construction methodologies

Our Policies

More information on our policies
can be found at www.psp.limited

Health, Safety & Well-being Policy

Our aim is to provide healthy and safe places to work by engaging with our people and ensuring the clients and suppliers we work with are like-minded in Health, Safety and Well-being.

Quality Policy

PSP Group are dedicated to a quality policy that will ensure that its project management consultancy services fully meet the requirements of its clients across the rail, power, transportation, infrastructure, and utilities sectors. In the pursuit of excellence, PSP seek to offer high satisfaction for all interested parties.

Environmental Policy

PSP Group is committed to sustainable environmental practices and minimising our environmental impact. We recognise our responsibility to reduce negative impacts and increase positive ones where possible.

Corporate Social Responsibility Policy

We acknowledge that running our business has an effect on society. We have a responsibility to our clients, our employees, and contractors as well as the broader community in which we operate.

GDPR Policy

PSP Group is committed to full compliance with the requirements of UK General Data Protection Regulation and DPA Act 2018, as well as any other relevant government legislation. All Company Personnel are issued with a GDPR Manual to be aware of their obligations and duties when processing personal data on behalf of the PSP Group.

Privacy Policy

At PSP we respect your privacy and are committed to protecting personal data.

Charity Work

PSP supports TreeAid.

Tree Aid is a charity working with communities in the drylands of Africa to tackle poverty and the effects of the climate crisis.

Meet Hope.

She is 4 and lives in Uganda. We support her and the work of Compassion UK Uganda is close to our hearts after the time Olli spent there.

PSP is honoured to be supporting this important charity. This charity, works to make a significant improvement to the lives of seriously and terminally ill children. Our Managing Director, Olli Wade, is an ambassador.

Project Management & PMO

Having undertaken the Project Management and Planning of these works for the last 5 years, through the strength of our relationship, PSP have now secured the PMO role for the AMP7.

PSP are now responsible for defining and implementing the Governance & Project Controls for the next regulatory period.

Thames Water - AMP6

Infrastructure Alliance Programme over 5 years. Our involvement is the Management of the Capital Works including trunk mains replacements; minor schemes replacing aged valves and meters; and maintenance and Improvements of high-risk tunnels across the city of London.

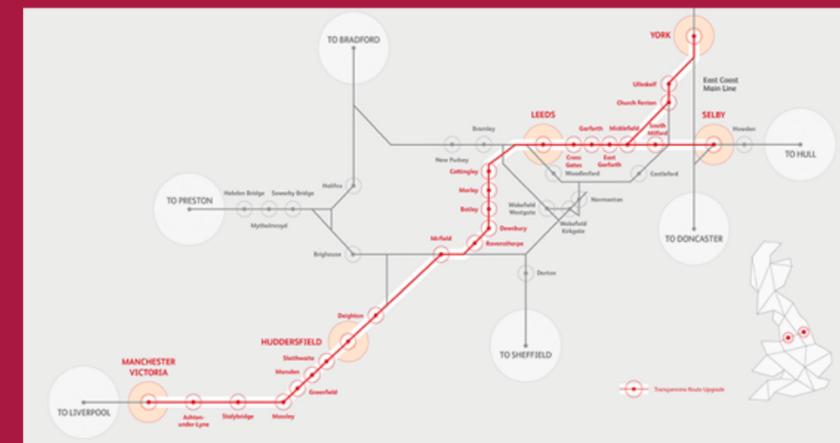

Project Controls & System Implementation

PSP held the role of Project Controls Lead for the Programme with numerous team members embedded within the PMO, covering Change Management and Reporting.

Transpennine Route Upgrade

£2.9bn Upgrade of the railway network between York and Manchester, with the key objectives being the upgrade of 4 major stations and improved capacity by improving the electrification; signalling and track alignments, which collectively increases capacity by over 200% and improves journey times.

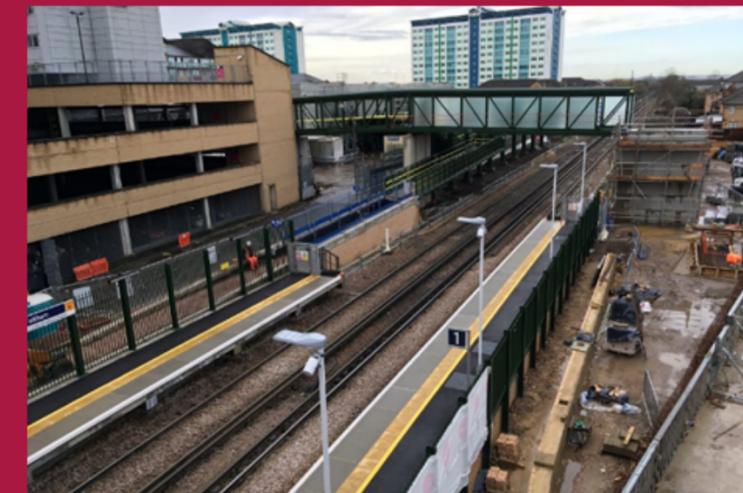

Feltham Resignalling Bridges

This phase of works forms part of a major Re-Signalling project to renew life Expired signalling, telecoms and power assets for Network Rail, comprising the renewal of 538 Signalling Equivalent Units (SEUs) and 2 new bridges.

Bid Management

PSP supported BCM in bidding for the design and construction of 2 new Bridges as part of the Re-signalling Programme.

BCM were successful in this bid and PSP continues to support the Project through delivery.

Bid Management

Providing specific expertise to CRRC in the development of Bids. Covering the definition of the Programme Management approach, writing Systems Assurance Plans, proof reading and content verification due to translation errors.

PSP were asked to support the mobilisation of the first project landed with Etihad Rail for the construction of a new line between Fujairah and Khorfakkan ports.

Etihad Rail – Rolling Stock Bids

Tendering 3 separate projects to Design; Manufacture; Introduce; Operate and Maintain Rolling Stock. The 3 projects are 2 long distance freight services and a passenger service. In total, supplying over 200 trains to Etihad Rail.

Business Change Management

PSP has been leading behaviour workshops to create a collaborative Environment between Siemens and the Client. This is designed to foster a singular High Performing Team culture. Following its success to date, TfL have requested support on other programmes of work.

Deep Tube Upgrade Programme - TfL

This is the first stage of the Piccadilly line Upgrade which will increase peak capability from 24 to 27 trains per hour before line-wide re-signalling, which will be progressed under Stage 2 of the project, to enable upgrading of services to 33 trains per hour.

PMO & Programme Controls

PSP held the key role of Project Controls Lead for the Owners Scope, Where we had an embedded team responsible for Cost; Schedule; Risk; Reporting and Document Control.

We also supported the client in Implementing the Cost Management System and Configuration Management System. We are currently undertaking the same role on Bradwell B nuclear new build.

Horizon Nuclear Power

Design; Development and Construction of a new nuclear power station using ABWR Technology. The scope of our work was on the Owners Scope element worth £2.2bn.

Programme Management

PSP were embedded within the PMO as the Programme Management Partner, where we established and implemented the Governance & Assurance Processes and subsequently managed the use of these tools during the delivery phase

Banedanmark Resignalling Programme

Complete modernisation and renewal of the Danish Railway Signalling System, by implementing state of the art ERTMS signalling systems from Siemens and Alstom. This covered the entire network including complete Modernisation within the city of Copenhagen.

Southern Water AMP6 Programme

Planning

PSP are embedded within the project teams undertaking the Planning for the Project, that has recently been extended to continue supporting the projects through AMP7.

As part of the AMP6 framework, we supported the £5.5m upgrade of the Portswood wastewater treatment works in Southampton to reduce odour. Our scope of work included the fitting of covers on two sludge consolidation tanks and upgrading the existing equipment including the inlet works and storm and primary settlement tanks.

Thames Water AMP6

£4bn Capital Delivery Programme over 5 years. Our involvement is the management of the Capital Works including Victorian mains replacements and leakage reduction across the City of London.

Project Management

PSP has undertaken the Project Management and Planning of these works for the last 5 years. Through the strength of our existing relationship, we have also now secured the continued support of Morrison for AMP7.

PMO MATURITY ASSESSMENT

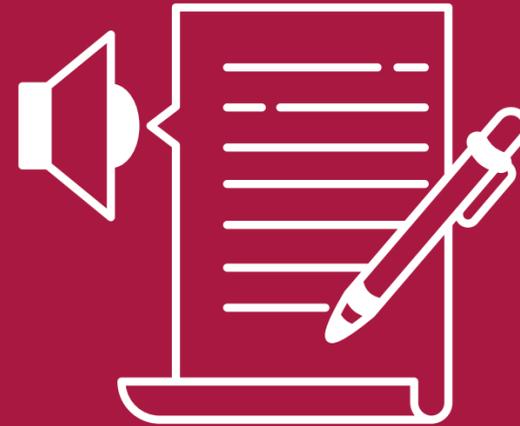

A 3-STEP PROCESS

1

DISCOVER

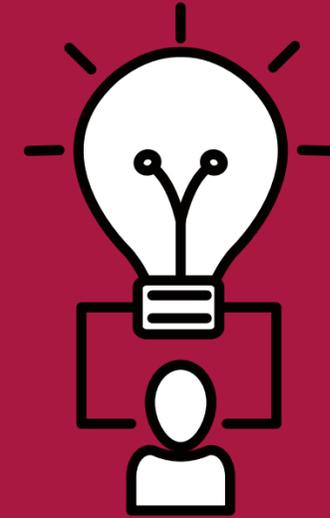

This is the assessment stage where an experienced Senior Consultant embarks on Discovery Phase in order to diagnose and provide you with the state of your Project Management Office.

2

DEFINE

During this phase we will define the steps for improvement and provide you with expert recommendations and options that are tailored to your organisation.

3

IMPLEMENT

Implementation is where the magic happens and we support and equip your organisation with the right size tools and capability to maximise your ROI.
